

DOI Work Activity 8J: Enhance Water Supply

Program Area:	Water and Power
End Outcome Goal:	UEO 2 – WATER - Deliver Water, Consistent with Applicable State and Federal Law, in an Environmentally Responsible and Cost-Efficient Manner
Intermediate Outcome:	UIO 2.2 - Effective Water Management to Optimize Supply
DOI Sub process:	4d – Conserve resources

Examples/Notes:

Work Activity Description: Developing and implementing measures to efficiently utilize water resources to produce/provide water to meet the range of needs of our water users to increase or maintain water supply to meet current or increasing demands. Includes activities related to water conservation, drought management, efficiency incentive efforts, water recycling and reuse, and water desalinization. Provide assistance to develop water management plans, modernize structures, automate operations, and demonstrate innovative technologies.

Output: Water Enhancement Efforts	Unit of Measure: Number of Water Enhancement Efforts Completed. Efforts include the number of construction, planning, implementation and assistance activities for the programs listed above (water conservation and planning, drought assistance, etc.) and other work/projects to improve water efficiency, modernize structures, automate operations, and demonstrate innovative technologies. Count the number of efforts completed in the reporting period
Inputs: a) Labor, travel, policy and guidance b) Congressional Requests, legislative mandates, regulatory requirements, identify range of needs for efficient utilization of water.	Cost Drivers: Cost of technology, cost of modernization, cost of automation, cost of technical assistance for planning
